Kontainers Selects Chain.io to Enhance Integrations

Kontainers improves speed and accuracy of its customers' supply chain integrations

PHILADELPHIA, PENNSYLVANIA / NEWCASTLE, UK, JULY 2, 2019 - Chain.io has announced that Kontainers, a modern digital freight execution platform, has joined the Chain.io provider network. By connecting with Chain.io, Kontainers is able to bring enhanced TMS integration to both new and existing clients, providing a more seamless digital freight experience.

"We're excited to have Kontainers onboard," said Brian Glick, Chain.io's CEO. "Existing Chain.io customers will benefit by having a great option for digitizing their customer experience and Kontainers' customers benefit from a smooth and efficient integration with their existing TMS software."

The Kontainers / Chain.io integration layer allows freight forwarders to integrate all major Kontainers features including automated quotation, booking, and tracking with their TMS platform of choice.

Kontainers CEO Graham Parker said, "We are delighted to become a part of the Chain.io network, a best-in-class tool bringing together an incredible group of forward-thinking freight brands. We see many synergies especially as we expand our US footprint."

About Chain.io

Chain.io delivers smarter and faster data integration via their cutting-edge supply chain connectivity platform. Their fully managed integration services allow Logistics Service Providers, Shippers, and Technology Firms to work together more efficiently under one umbrella. Specialties include Blockchain, as well as complex client integration. Chain.io is headquartered in Philadelphia, PA. For info@chain.io
