Amsterdam, 11th July 2012

Dutch wine merchants WijnWagentje, has employed Menlo Worldwide Logistics (Menlo) to supply order fulfilment services for its internet sales operation. Menlo will maintain all aspects of the e-commerce function, including order processing, warehousing, packaging, inventory control and distribution from its facility at Eersel in the southern part of the Netherlands. In making its decision, WijnWagentje management was impressed with Menlo's personal approach, its flexibility, the efficiency of its proposed start-up methodology and the logistics company's ability to assist with potential business development plans into other regional markets in the near future.

Wicher van den Bosch, the co-Founder of WijnWagentje comments, "To enhance our service to the consumer and to further optimise the logistics behind our online web shop, we chose Menlo as our new fulfilment partner, primary because of their willingness to work closely with us on every detail of our requirements and their potential to help us expand our markets in the future."

Customers ordering via www.WijnWagentje.nl purchase cases of wine (6 bottles in each) with the option of mixed cases. Menlo handles the entire fulfillment process from receipt of order to final delivery.

In welcoming WijnWagentje as a new customer, Tony Gunn Menlo's Managing Director in Europe stated, "With the current trend of growth in internet retailing rapidly increasing the emphasis on e-commerce as a consumer outlet, our e-fulfilment services are in greater demand. Menlo is delighted to assist a start-up venture in the Dutch market and is well-paced to service this customer's expansion plans into other European markets."

About WijnWagentje

WijnWagentje (“Wine Cart”) runs an easily accessed web shop selling “quality wines for nicer prices” to wine lovers in the Netherlands. The company was founded in 2009 by two Dutch friends living and working in Italy; hence the current specialisation in Italian wines. Growth plans foresee the addition of quality wines from other regions in due course. The concept remains lean and mean: you pay a realistic price for the quality you buy, but all other costs are minimised.
