Yusen Logistics UK Launches New Hong Kong and Shanghai Consolidation Services

In response to market demand for enhanced services for the movement of smaller cargo volumes internationally, Yusen Logistics has launched direct weekly Less Than Container Load (LCL) services from Hong Kong and Shanghai to Southampton.

These services make use of premium carriers only, with Yusen Logistics providing high security standards and offering a transit time of 24 days from Hong Kong to Southampton and 30 days from Shanghai to Southampton.

With a Yusen Logistics managed de-van facility and a single point of communication throughout the supply chain, containers can be prioritised to meet customers' requirements with Yusen Logistics offering direct control over the release of cargo at destination. This allows immediate availability of stock upon receipt at Southampton and, with the Yusen Logistics Customs Clearance team available seven days a week, the focus is on speed of service as well as security.

The new routing provides full visibility of cargo in transit and delivery throughout the UK on Yusen Logistics' own tracked vehicles, giving enhanced visibility and security.

High quality warehousing nationwide and a comprehensive range of value added services complete the new offering.

Yusen Logistics is also supporting other origins such Indonesia, Thailand and Malaysia via its Multi-Country Consolidation Service (MCC) from Singapore.

ENDS

Monday 10th June

ABOUT YUSEN LOGISTICS
