NISSAN RENEWS WITH YUSEN LOGISTICS IN THE UK

Yusen Logistics (YL) has secured a major contract renewal with Nissan Motor Manufacturing (UK) Ltd. The two companies have been working in close partnership since 2008.

YL provides inbound logistics services to the Nissan manufacturing facility in Sunderland, to support production of the Qashqai, Note, Juke and Leaf.

YL is responsible for the delivery of a complex range of components from Nissan's UK supplier base. This is a highly time sensitive operation, with Nissan holding minimal stock on site. The operation is based at YL's strategic site in Leeds, supported further by Yusen's network operations to provide collection flexibility as required.

Edward Metcalfe, Section Manager RNPO (Renault Nissan Purchasing Organisation), commented: "Nissan is pleased to continue its activity with Yusen in the UK, as our successful business relationship moves forward".

Ian Veitch, Managing Director, Yusen Logistics UK commented: "This is great news which builds on the quality of service that we have provided to Nissan over a number of years. We look forward to continuing our long term and successful future with Nissan in the UK."

In addition to the UK business, YL also provides the collection service in Central and Eastern Europe, supporting Nissan production in both Sunderland and Barcelona. YL also provides UK collection services for Nissan's International Parts Centre (IPC) in Sunderland.
