

Korean Air Cargo freighter operation to Dhaka, Bangladesh

- ◎ Korean Air operating B747 freighter twice a week to Dhaka, Bangladesh every Wednesdays and Fridays
- ◎ Transportation of clothing, fabric, and leather cargo is expected to increase

Starting from July 31, Korean Air will launch new freighter schedule to Dhaka, the capital of Bangladesh. This new operation will broaden Korean Air's South East Asian network.

The operating aircraft B747 freighter will depart from Incheon to Dhaka via Hanoi, Vietnam two times a week, every Wednesdays and Fridays. From this new route, Korean Air is expecting to provide convenient flight schedule to our customers for the transportation of cargo from Incheon to Dhaka. This operation will also contribute to the export of clothing and leather product manufactured in Bangladesh not only to America, but to North-East Asia including South Korea, Japan and China.

Bangladesh is well-known for its clothing industry and the amount of clothing export accounts 74 percentage of its total amount of export in 2012. Bangladesh has been ranked as the third largest clothing exporter in the world. Recently, the government of Bangladesh is planning to diversity export partners and promote high added value of textile industry in order to develop the clothing industry and increase more related trade.
