"K" Line Group introduces new total auto-logistics business in Chile

KAR Logistics S.A. (hereinafter shown as KAR*), Joint Venture Company between "K" Line and Agencias Universales S.A.(AGUNSA), which handles Total Logistics Services in Chile and Latin America countries, has started Auto-Logistics service in Santiago, Chile from Aug, 2016.

Customer requirements for services related to automobiles in Chile and Latin America countries around Chile that are showing continuous growth of vehicle sales and import have been on the increase. With the combined know-how of the two joint venture companies, KAR provides the required value-added service that can successfully satisfy the logistics needs for vehicle.

KAR inaugurated a facility dedicated for vehicle logistics at Noviciado, close to the capital Santiago. And KAR also runs its own fleet of GPS-equipped car transporters. With the facility and equipment, it offers an integrated logistic service for vehicle as well as transportation, storage, accessorizing, and pre-delivery inspection.

"K" Line Group places "Logistics Business" as a stable profit-making sector in its "Medium-Term Management Plan," and by following this strategy, "K" Line is further enhancing its Automobile Logistics Business that is already in operation in Indonesia, Thailand, Singapore, India, Australia, Brazil and Vietnam. "K" Line will continue to make every effort and do its best for achieving maximum customer satisfaction in Vietnam by utilizing its many years of experience and know-how in sea transportation by Pure Car Carrier vessels.
