

Turkish Cargo increases its share in Chinese air cargo market

Reaching 307 destinations in 122 countries with the cargo transport capacity of Turkish Airlines, which flies to the most countries worldwide, and operating additional direct cargo flights to 83 destinations thanks to its fleet of freighters, Turkish Cargo achieved a 10.7% growth in China at January-May era, as reported by the WACD (World Air Cargo Data). Turkish Cargo continued its rising momentum, when there was a contraction in Chinese air cargo market.

Turkish Cargo, which aims to grow even further in the Chinese market with its strong collaboration initiatives as like with the Chinese cargo giant ZTO and Hong Kong based PAL Air Ltd. door to door service which targets on the global e-commerce market and aimed to service in global express transportation.

Prior to the opening of the Istanbul New Airport, this collaboration will move the stones in global express transportation sector; not only in Turkey but also aroused great repercussions in the world.

With achieving a sustainable growth thanks to its current infrastructure and investments, Turkish Cargo is one of the fastest-growing air cargo companies of the world with these new routes. The outstanding air cargo brand combines its wide range of services and operational capabilities with the unique geographical advantages of Turkey, and keeps setting the bar higher with each passing day.
