AEI SIGNS AGREEMENT FOR 30 ADDITIONAL B737-800SF FREIGHTER CONVERSIONS

Miami, Florida – May 17th, 2016

Aeronautical Engineers, Inc. (AEI) announced today the company has signed an agreement to provide up to 30 twelve pallet position B737-800SF conversions with an undisclosed customer. The agreement calls for 15 firm orders with an additional 15 options. The modifications for the customer will begin in late 2018 with deliveries beginning in 2019. To date, and including this recent announcement, AEI has received a total of 80 firm orders and commitments for its twelve pallet position B737-800SF.

The conformity aircraft for the 737-800SF conversion program is currently on location at Commercial Jet's facility in Miami, FL.

The AEI B737-800SF converted freighter will be able to accommodate eleven 88"x125" AAA full height containers or pallets and one AEP/AEH container for a total of 12 positions. Depending upon the aircraft model and aircraft weight limits, the AEI B737-800SF will be able to carry a payload of up to 52,000 LB (23,587 KG). Additionally, the AEI B737-800SF freighter will incorporate an 86" x 140" main cargo door and will include up to 5 supernumerary seats.

When combined with proven reliability, the AEI Converted B737-800SF will allow customers to keep their aircraft - **"In the air, generating revenue"**.

Aeronautical Engineers, Inc.

Aeronautical Engineers, Inc. (AEI) is a global leader in the aircraft passenger-to-freighter conversion business and is the oldest conversion company in existence

today. Since the company's founding in 1958, AEI has developed over 120 Supplemental Type Certificates (STCs) and has modified over 400 aircraft with the STCs. AEI helps its customers extend aircraft life and increase the overall value of aircraft assets by continuously focusing on dependable and flexible product offerings. AEI currently offers passenger-to-freighter conversions for the Boeing 737-400, 737-300, and MD-80 aircraft. AEI will certify its new CRJ200 SF freighter conversion in 2016, followed by the Boeing 737-800 full freighter and combi conversions in 2017. www.aeronautical-engineers.com
