

FOR IMMEDIATE RELEASE

**ROADRUNNER TRANSPORTATION SYSTEMS ANNOUNCES
ACQUISITION OF MARISOL INTERNATIONAL**

Cudahy, WI - July 25, 2013 - Roadrunner Transportation Systems, Inc. (NYSE: RRTS), announced today that it has acquired all of the outstanding membership interests of Marisol International LLC ("Marisol"), a leading non-asset based, supply chain-critical, provider of international logistics solutions based in Springfield, Missouri, for a total purchase price of \$66 million, plus an earn-out capped at \$2.5 million. Marisol's service offering includes international ocean and air transportation management, customs house brokerage capabilities, and domestic logistics solutions for a diversified customer base ranging from Fortune 500 companies to small and mid-market enterprises. Marisol's customizable and comprehensive service offering, superior service levels, flexible proprietary technology, and highly-trained workforce have contributed to outstanding growth and operational performance since its inception in 2002, to revenues of \$95 million and net revenues of \$20 million for the year ended December 31, 2012.

Mark DiBlasi, President and CEO of Roadrunner, said, "As we have indicated, one of our key strategic objectives in 2013 is broadening our international capabilities to meet our customers' total transportation and logistics needs. Many of our existing 35,000 customers import and export raw materials, purchased components, and finished products. Marisol represents an ideal fit both strategically and culturally.

"The addition of Marisol will enable us to provide a comprehensive, global supply chain solution to our combined customer base. Our collective offering of international logistics and domestic services ranging from less-than-truckload, truckload, intermodal solutions, to freight consolidation and warehousing as the actual service provider, is unmatched. We will be able to handle full- and less-than container load shipments from origin to destination on a global basis for both refrigerated and dry freight.

"From a cultural standpoint, Marisol's growth-oriented, team-based and high-integrity culture is very consistent with Roadrunner's. Furthermore, Marisol's talented leadership, led by Micah Holst, President, and Jason Descamps, COO and CIO, is highly professional and capable of leading significant growth in our international platform."

Scott Dobak, President of Roadrunner's TMS and LTL business segments, added, "Our customers are increasingly seeking a service provider who can provide complete, full-service solutions. Our ability to bring Marisol's offering to our customers, together with greatly enhanced coverage from our sales force, can accelerate Marisol's growth opportunities. Additionally, we expect to realize synergies throughout our combined network resulting from the cross-utilization of the expanded services we can collectively bring to our customers."

Micah Holst, President of Marisol, said, "Marisol and its employees are very excited to partner with Roadrunner. Marisol and Roadrunner share similar values. Namely, we both strive to provide our customers with the best possible logistics solutions, execution and overall customer experience. This combination provides both organizations full-service solutions for our customers and immediate cross-selling opportunities while expanding the career opportunities available to our valued employees."

Financing for the transaction was provided by borrowings under Roadrunner's credit facility. Marisol is expected to be accretive to Roadrunner's earnings in 2013.

The Marisol transaction will be discussed in greater detail on Roadrunner's earnings call on Wednesday, July 31, 2013, at 4:30 p.m. Eastern Time.
