

CIFFN, now the Worlds largest Freight Forwarding Organization

FOR RELEASE - June 24, 2013

by: Raizza Santos

Hong Kong SAR, China – The Confederation of International Freight Forwarding Networks (www.CIFFN.org) is an International Non-Profit Organization founded in 2011 by 19 Freight Forwarding Network Owners representing over 4,126 Independent Freight Forwarders Globally.

CIFFN is Worlds' first and largest Confederation of its kind and the only one built on consensus with the goal to improve the Freight Forwarders Networking Industry, leading to safer and more progressive business development environments for Independent Freight Forwarders.

The organization facilitates close cooperation among Freight Forwarding Network owners and has designed specific programs to maintain and continuously improve Quality Management Systems for Freight Forwarding Networks. In addition to monitoring and maintaining the operational quality of Networks, CIFFN is hosting the forwarders Payment Default Prevention System which is shared across all participating members.

"This also ensures an overall safer transaction environment among Independent Freight Forwarders." - Mark Millar, Industry Advisor to CIFFN & Managing Partner of M Power Associates.

"In todays' economic environment it is important to cooperate and share information across our Networks, especially those delinquent Freight Forwarders, CIFFN facilitates this sharing of critical information excellently" – Henrik Christensen Chairman CLC.

"CIFFN further ensures that Freight Forwarding Networks operate and follow strict Quality Management Systems set out and monitored by the board, this in turn promotes a safer business environment amongst Freight Forwarders" – Nils Walle, Director & Co. Founder (CLN) www.combinedlogisticsnetworks.com

The next annual *CIFFN* meeting will be held on 13th October 2013 at the Shangri-La in Bangkok, alongside *The Freight Summit (TFS)* (www.thefreightsummit.com) where leading Global Forwarding Networks converge with their members: WWPC (480members), CLC (300members), CLN (200members), MFA (100members) as well as the Leading Neutral airfreight wholesale network ACG (80members) will be participating at the TFS this year.

More information is expected to be released following the CIFFN meeting on October 13, 2013.
