

CLX LOGISTICS STRENGTHENS PARTNERSHIP WITH KEWILL AND LAUNCHES KEWILL FORWARDING FOR FREIGHT FORWARDING SERVICES

With a Single Integrated Platform, Organisation Streamlines Shipment Processes and Enhances Visibility for Customers

August 12, 2015 – UK – [Kewill](#), a leading provider of innovative software for supply chain execution, today announced that long-time TMS partner [CLX Logistics](#) has chosen [Kewill Forwarding](#) for its Freight Forwarding services. Part of the [Kewill MOVE® on the Cloud](#) for Logistics Service Providers platform, Kewill Forwarding is an out-of-the box solution that provides complete control over the order-to-cash process for freight movement, ensuring operating processes and compliance regulations are followed, resulting in the ability to better serve customers.

CLX Logistics is a leader in global logistics services. With international operations, servicing one of the most complex and challenging environments – chemicals – the company required one solution that would improve day to day operations and increase visibility, while continuing to offer its customers the expected high level of service required. Kewill Forwarding provides CLX Logistics with unmatched customs and compliance functionality that is critical to the proper shipment of chemical goods. The robust reporting and track and trace capabilities and visibility into the forwarding journey made the solution a natural fit to pair with CLX Logistics' extensive expertise in managing this complicated ecosystem.

“Kewill Forwarding has enabled us to streamline our processes and eliminate redundant work effort – save time, increase productivity and add customer value,” said Marc Lombardi, International Operations Manager, CLX Logistics. “The Kewill solution allows us to better serve our customers by providing them with increased visibility and reporting functionality. The depth of capabilities offered within the solution will allow us to expand our customer service capability going forward.”

The multimodal freight forwarding solution offers quick and easy access to critical shipment information, providing customers with unmatched visibility of cargo throughout the shipping journey. Kewill Forwarding also improves the management of processes, automating procedures and reducing the amount of time spent on duplicate content entries. By providing a track and trace feature with in- depth reporting, Kewill Forwarding offers a more robust view into the shipment cycle for users increasing control over shipments and greatly limiting unforeseen risks.

“We are thrilled to expand on our relationship with CLX Logistics by providing them with our Kewill Forwarding solution,” said Walter Heil, Vice President, Multimodal Transportation Solutions at Kewill. “The strategic decision to integrate the solution into the service offering helps to further CLX's position as a leader in global logistics management and supply chain services. We are pleased that CLX Logistics continues to place their trust in Kewill.”
