

## **KUEHNE + NAGEL SIGNS MASTER LEASE AGREEMENT WITH CSafe LLC**

**September 2012** – CSafe LLC and Kuehne + Nagel announced the signing of a Master Lease Agreement to complement and enhance Kuehne + Nagel's KN PharmaChain supply chain service developed specifically for the pharmaceutical and healthcare industry. The agreement adds the best in class CSafe RKN to Kuehne + Nagel's health care product portfolio.

Brian Kohr, President and speaking on behalf of the CSafe team, expresses CSafe's pleasure in the new partnership: "We are proud to extend the superior product and global service known throughout the industry to Kuehne + Nagel for their expanded KN PharmaChain product offering."

Kuehne + Nagel has introduced KN PharmaChain, a product tailored to the specific needs of the Pharmaceutical and Healthcare industry. It provides a choice for critical general cargo as well as temperature sensitive shipments. In order to best respond to all shipment requirements, KN PharmaChain offers four service levels depending on the grade of specific temperature control requirements and special handling demands. The KN PharmaChain network comprises of strategically designated, GXP compliant (Best Practice) stations around the world. Other features include full risk assessments of carrier partners and trade lanes, a dedicated SOP for every shipment, a CareTeam that monitors and actions 24/7/365, an electronic alert system and the optional real-time temperature transmission en-route into the company's online tracking tool KN Login, using wireless sensors. The CSafe RKN addition enhances the service level of active temperature controlled air cargo containers, significantly delivering a superior reliability and quality to customers.

**Marcel Fujike**, Vice President Products & Services Air Logistics for Kuehne + Nagel stated: "With embedding the CSafe container into our KN PharmaChain service offer, we are ensuring that our clients can take advantage of the CSafe RKN container reliability linked into a GXP compliant door-to-door process".

CSafe continues to grow to meet the needs of their customers including new partnerships with major global airlines, forwarders and specialty couriers; additions to their global service network; and by the ongoing expansion of their fleet of containers. The AcuTemp RKN continues to be the first and only active temperature-controlled air container with FAA, EASA, Transport Canada, Hong Kong CAD, Irish Aviation Authority IAA and Israeli CAA approvals.
