Cargolux extends route network to Mali

Luxembourg, 29 November 2013. Cargolux Airlines International S.A. today announced the launch of a weekly service to Bamako, the capital of Mali, from 5 December 2013. The flights are operated with the airline's efficient Boeing 747 freighters which offer main deck capacity for the transport of airfreight supplies that support the local industries in the areas of natural resources, telecommunications, healthcare and pharmaceutical products, perishables and general appliances.

In 2010, Bamako Airport inaugurated a new cargo terminal with a yearly capacity of 10,000 tonnes and extended the runway to 3,180 meters, enabling the operation of large aircraft, such as Cargolux's 747 freighters.

Flight CV7124 is operated every Thursday on the routing Luxembourg – Bamako – Lagos – Libreville – Nairobi – Manston – Luxembourg. Departure in Luxembourg is scheduled for 16.30 GMT with arrival in Bamako at 21:40 GMT. With this service, Cargolux connects another African destination to its worldwide network and offers shippers fast and reliable airfreight solutions to a market with growing importance.

Cargolux's African network now covers 13 destinations that show promising export potential with strong shipments for the oil and gas industry. Cargolux also offers direct services between the United States and Africa.

About Cargolux Airlines International

Cargolux, based in Luxembourg, is Europe's leading all-cargo airline with a modern and efficient fleet composed of 9 Boeing 747-8 freighters and 11 Boeing 747-400 freighters. The Cargolux worldwide network covers 90 destinations, 60 of which are served on scheduled all-cargo flights. The company has more than 85 offices in over 50 countries, and also offers an extensive global trucking network to more than 250 destinations as well as charter and aircraft maintenance services. Cargolux employs over 1,500 staff worldwide.
