DSV Solutions to operate European Supply Chain Services for Yokogawa Europe

DSV Solutions in The Netherlands has won a long term contract to operate Yokogawa's European Supply Chain Operations from its brand new Service Center in the Amsterdam Westpoort harbour area.

The new state of the art 50,000 m² logistics facility is strategically positioned at the Atlas Park close to Schiphol Airport and the new A5 highway, which will be completed by the end of 2012.

DSV is highly experienced in the technology industry, with a focus on high quality and agile operations. This experience will support Yokogawa Europe with its drive to continuously develop and supply solutions and services with optimum quality and reliability to customers and society, thereby contributing to industrial growth.

"DSV values Yokogawa as an important customer and very much welcomes the company to our brand new Service Center, where we can offer our vast experience covering a wide variety of services. With this contract we have proven our supply chain competence in the industrial automation (IA) and control business of the oil, gas and other critical industries," said Yvo Heiligers, Business Development Director – DSV Solutions.

Michael Bouchier, European Logistics Manager, Yokogawa, said the company was very excited to be embarking on this new partnership with DSV.

"We feel there are many positive fits between our two companies and that DSV has much to offer to strengthen our European supply chain solutions and quality commitments to our customers," he said.
