AA CARGO SIGNS MEMORANDUM OF UNDERSTANDING WITH GLOBAL LOGISTICS NETWORK – GLN

FORT WORTH, Texas – In a move designed to further extend its sales activities with as broad a range of customers as possible, American Airlines Cargo today announced it has signed a Memorandum of Understanding (MoU) with Global Logistics Network (GLN). The MoU will allow increased interaction between the two parties with a goal of increasing business opportunities.

Following a signing ceremony at its Fort Worth headquarters, Roger Samways, Managing Director of Global Accounts and Sales Strategy for American Airlines Cargo said, “We have been looking at prospective network partners where there is potential to expand existing business. With GLN, I believe we have found such a partner where we can develop a relationship which is mutually beneficial.

“By working closely together in a more formal way, we hope to be able to build upon the relationship which we already have with some of GLN members and increase the business development opportunities for both parties.”

About American Airlines Cargo

American Airlines CargoSM, a division of American Airlines, Inc., provides over 100 million pounds of weekly cargo lift capacity to major cities in the United States, Europe, Canada, Mexico, the Caribbean, Latin America and Asia. American, American Eagle and the AmericanConnection® regional airlines serve more than 250 cities in over 50 countries with more than 3,600 daily flights. The combined network fleet numbers more than 900 aircraft. American provides one of the largest cargo networks in the world, with cargo terminals and interline connections available across the globe.

About Global Logistics Network

Founded in 2003, and headquartered in the USA, Global Logistics Network (GLN) is an ISO9001:2008 Certified organization that encompasses leading, independently owned and operated companies worldwide that specialize in the logistics industry – including freight forwarders, transportation intermediaries and associated companies – all working together in a network environment. With 423 members with combined annual revenues of US\$8.7 billion and 21,127 experienced and capable staff handling over five million shipments per year, GLN is larger in size than many of the multi-national forwarders.
