

## HERMES Release Version 4.5

### HERMES Press Announcement February 2012

HERMES is proud to announce the release of Version 4.5. This extremely powerful yet exceedingly easy-to-use system has been created by Air Cargo experts for Air Cargo Handlers around the world, with feature-rich functionality providing full capabilities for any size of operation.

Always at the forefront of customer satisfaction, HERMES has launched Version 4.5 with additional functions and features to better address our customers' needs in the system. Here are a few of the improvements;

- New Homepage and Menu, which can be personalised by user and /or station using area specific icons
- Ability to range the ULD Inventory by Managing Airline
- Added support for 64 bit platform servers
- Security enhancements (new 2nd & 3rd Party Security checks are now available)

These enhancements provide added benefits including; speed of accessing, user ownership, increased productivity, effective ULD control, reduce hardware requirements and increasing cost efficiencies.
