

Jan de Rijk Logistics reports healthy growth in 2015

Roosendaal, the Netherlands, June 2016

Jan de Rijk Logistics, one of the leading logistics service providers in Europe, reports higher revenues in 2015.

The company realized a total combined turnover of EUR 216 million in 2015, and an operating result of EUR 16.6 million compared to an operating result of EUR 15.9 million in 2014.

The recent 2 acquisitions of de Rooy Logistics and Omega Logistics, and further diversification contributed to the improved results. Through these acquisitions Jan de Rijk Logistics continued to increase its healthcare & automotive logistics portfolio. Also the contract logistics division showed solid growth.

The slowdown of the Chinese economy, the disruptions at the border crossing due to the migrant influx, and different currency fluctuations were the main challenges last year

The outlook for 2016 is modestly optimistic. The overall economic growth has been limited so far.

Jan de Rijk Logistics, based in the Netherlands, is a leading provider of transportation and distribution services, operating a large, modern and diversified fleet of over 1,000 vehicles across Europe. The company also offers contract logistics, assembly & intermodal services and retail distribution. Jan de Rijk Logistics has 27 offices in 14 countries and employs 1,300 staff.
