Kuehne + Nagel Group

**Kuehne + Nagel expands its digital KN FreightNet solution to Seafreight LCL**

**Schindellegi / CH, November 16, 2015 – After the introduction of KN FreightNet for Airfreight in 2014, Kuehne + Nagel is launching its new digital solution for quotations and booking of door-to-door LCL services.**

LCL (Less-than-Container Load) is an important segment of Kuehne + Nagel's seafreight business. With central gateways on a global base and a dense network of routes, Kuehne + Nagel customers benefit from efficient operational processes and short transit times.

Obtaining quotes and placing bookings is often a time-consuming process that may cause delays. Using KN FreightNet for LCL, customers can obtain quotes for export and import shipments online within seconds and are able to place their orders faster than ever. No pre-registration is needed as the platform can be accessed by everyone.

Quotations are based on simple shipment details such as place of origin, final destination, weight and volume. Users receive a clearly structured overview of the all-inclusive door-to-door price including all applicable surcharges, as well as the estimated transit time. At this point a booking can be made or the offer, valid for 30 days, can be saved for later use.

Users can also, with the KN Login iPhone App, determine the status and transportation details of the LCL shipment while the shipment is in transit.

Otto Schacht, Executive Vice President Sea Logistics, said: "We are proud to be the pioneer in our industry to make LCL quotations and bookings as easy as possible for our customers. The speed and simplicity of KN FreightNet for LCL are the key elements of this innovative digital solution. Even highly complex door-to-door requests are calculated in seconds."

KN FreightNet for LCL is now globally available via [www.knfreightnet.com/lcl/](http://www.knfreightnet.com/lcl/)
