

NORBERT DENTRESSANGLE LAUNCHES PRIMARY DOOR-TO-DOOR AIR FREIGHT NETWORK

Norbert Dentressangle Overseas – the fast-growing freight forwarding division of Norbert Dentressangle – has launched ‘Red Sky Connect’, a managed, end-to-end airfreight service covering the world’s four major trading regions.

The company is launching six initial routes, connecting China to Europe and the Americas, Latin America to Europe and the US, and the US to Europe, with further routes due to be added as Norbert Dentressangle Overseas’ network continues to expand.

Under the new service, Norbert Dentressangle offers supplier consolidations at origin, customs management and daily direct and indirect flights, providing a secure and reliable service, managed by a single partner. For European destinations, the company can also provide onward distribution through its established road transport network, offering a genuinely door-to-door service.

With block space agreements with major cargo carriers and its own consolidation facilities in major points of origin, Norbert Dentressangle offers highly competitive rates and robust operational services to both importers and exporters.

Dave Barron, Global Commercial Director, Norbert Dentressangle Overseas said: “The launch of the new service is part of our strategy to develop our activities on the major ND Overseas trade lanes to support our clients in their key markets.”
