

NaviTrans to Integrate INTTRA's Suite of Electronic Ocean Shipping Services into its Logistics Solutions

PARSIPPANY, N.J., and HARELBEKE, Belgium September 22nd, 2016 – INTTRA, the world's ocean shipping electronic marketplace, and NaviTrans, a leading provider of software solutions for logistics firms operating on the Microsoft Dynamics NAV platform, today announced a partnership to integrate INTTRA's full suite of ocean shipping services into NaviTrans software. As a result, NaviTrans clients will have seamless access to INTTRA's global network to make bookings, submit shipping instructions, easily track shipments anywhere in the world, and utilize other INTTRA solutions.

"Ocean shipping is a vital part of the supply chain, and offering shipping management services can be essential for logistics providers and their partners," said Sherrie Orzechowski, Vice President, Business Development at INTTRA. "Our alliance with NaviTrans reflects our commitment to partnering with leading software providers to offer their customers access to our unparalleled ocean shipping products and network."

"For the forwarding companies among our logistics customers, offering shipment management services is indeed a crucial part of their business," said Stefan Dedrie, Managing Partner at NaviTrans and VP of International Business Development. "Our alliance with INTTRA however is more than just a next logic step. It also emphasizes our continued commitment to the forwarding industry as one of the major logistic branches we focus on."

About INTTRA

INTTRA is the largest neutral electronic transaction software platform and information provider at the center of the ocean shipping industry. INTTRA's innovative products, combined with the

scale of our network, empower our customers to trade with multiple parties and leverage ocean industry information to improve their business. Connecting over 225,000 shipping professionals with more than 50 leading Carriers and 110 software alliance partners, INTTRA streamlines the ocean trade process. Over 700,000 container orders are initiated on the INTTRA platform each week, representing approximately 25 percent of global ocean container trade.

About NaviTrans

With more than 16 years of industry focus and over 250 logistic service providers that rely on NaviTrans to control their businesses, NaviTrans is the most comprehensive out-of-the-box software solution in the industry today. It translates the complex reality of a wide variety of logistic companies into easy-to-control processes that help them to cut costs, increase profit margins and exceed their customers' expectations. NaviTrans is developed on Microsoft Dynamics NAV, the business solution (ERP) that structures financial and operational business processes. Like other Microsoft products it is user friendly and easy to implement.
