

Network Airline Management and Western Global Airlines Extend Long-Term MD11F Contract

12th July, 2017: Network Airline Management (NAM) is pleased to announce that it has recently renewed its long-standing contract with Western Global Airlines (WGA). Under the terms of the agreement, WGA will continue to operate up to three MD11Fs on behalf of NAM, with operations based in Liege, Belgium.

The aircraft support NAM's operations with Allied Air of Nigeria, as well as their scheduled cargo services throughout Africa.

Andy Leslie, Group Chairman, Network Aviation Group, said, "Our renewed contract builds upon an already strong and successful 4-year partnership between Network Airline Management and Western Global Airlines. The new, long-term agreement will enable us to strengthen and expand our route network in the future as we take further aircraft, and complements our B747-400F aircraft that we offer via Astral Aviation in Kenya."

Jim Neff, CEO of WGA, added that "Western Global Airlines is proud to serve Network Airline Management and its customers with our efficient fleet of MD-11 aircraft, and build upon our relationship and position in the market as the leading provider of MD-11 air cargo capacity."

About Network Aviation Group

Network Airline Management wet leases a fleet of B747F and MD11F aircraft and has over 30 offices across the globe. Our group handles over 70,000 tonnes of cargo annually offering a variety of sales and services to client airlines, as well as managing a fleet of freighter aircraft on a network of scheduled routes and charters throughout the world.

About Western Global Airlines

Western Global Airlines is a leading US DOT certificated, part 121 all-cargo air carrier operating a fleet of 11 MD-11 and two B747-400 freighter aircraft. Western Global Airlines has operated to 278 airports in 110 countries and territories on 6 continents, and provides charter and ACMI services for the world's premier airlines and logistics companies. Our first priority is to ensure the safety of our people, aircraft and customers at all times, while providing a unique combination of low cost, high reliability and exceptional responsiveness to meet our customers' changing needs.
