

Pentalver Tilbury introduce two lane entry.

Pentalver Tilbury are now operating a dual lane entry into Pentalver which will help with yard performance and allow vehicles be processed quicker. This will also reduce the amount of queuing out of the depot and impacting the port estate.

Another change which has been made at Pentalver Tilbury is the introduction of a new inspection area for containers. This will allow containers to be taken off hauliers visiting the depot immediately allowing the customer to get reload or leave the yard empty with quicker turnaround times.

These ideas have been put in place to help hauliers and customers experience a hassle free experience when entering the depot and ensuring that vehicles are turnaround as quick as possible.
