

e-CARGOWARE to digitize Astra Aviation Cargo Handling Facilities in Africa

London, United Kingdom., May 24, 2017 /Press Release/ -- e-CARGOWARE today announced that it has been selected by Astra Aviation Services – UK Ltd to digitize their expanding Cargo Handling Facilities throughout Africa starting with its main handling facilities in Luanda – Angola.

e-CARGOWARE's cloud based Cargo Management Platform is flexible, robust, easy to use, eliminates paper and conforms to IATA e-AWB specification. The platform is used by Cargo Handlers in Canada, UK and Cyprus to handle several airlines including the likes of British Airways, Emirates, Lufthansa, Qatar, Etihad to name a few.

Astra Aviation Services is a young, flexible and growing company providing dedicated solutions for airlines flying into destinations across Africa. All their management have lived and worked in Africa and use their local experience to deliver unique solutions for their customers.

Phil Eyre, M.D of Astra Aviation Services said "As a growing company we are on the lookout for an online solution that's flexible and automates our operation thus improving operational efficiency and serve our customers better. e-CARGOWARE platform is cloud based, cost effective, easy to use and will help us provide a superior service to our customers. Its dashboards will help my management team monitor our entire network remotely."

Arun Singh, Senior Director and Co-Founder said "We are excited to welcome Astra Aviation Services, on board e-CARGOWARE cargo platform that's already used by several forward-thinking Cargo Handlers that are embracing digitization route to reduce inefficiencies, increase revenues and provide a superior customer experience".
