

Jan de Rijk Logistics and Shanghai Origin Supply Chain Management jointly provide European logistics solutions for PACCAR China suppliers

Recently Jan de Rijk Logistics signed a cooperation agreement with Shanghai Origin Supply Chain Management Co., Ltd. (ORIGIN) to provide the European logistics solutions for PACCAR China suppliers in order to support PACCAR's DAF truck manufacturing operations in Eindhoven, Netherland.

With end to end visibility, the jointly developed logistics solution by Jan de Rijk Logistics and ORIGIN integrated all phases of international supply chain from origin consolidation, door to door transportation, trade compliance, fiscal representation, material management, warehousing, inventory control, Quality Assurance, value added service, JIT replenishment and reverse logistics.

"With the growing demand of global sourcing and increasing complexity of international supply chain management, the unique logistics solution put together by Jan de Rijk Logistics and ORIGIN laid a solid supply chain foundation for PACCAR and our 100 plus suppliers in China," said Edward Song, Managing Director of PACCAR China. "The logistics solution makes it possible for both PACCAR and our suppliers to focus on what we do the best and leave the logistical issues to the experts."

"We are excited to work on this project together with ORIGIN. It fits perfectly in our current expanding activities for PACCAR, and our growing ambitions to expand our activities beyond Europe. We are very proud to be selected by PACCAR and we are thrilled to expand our partnership with PACCAR, PACCAR China suppliers, and ORIGIN further. We are sure that we will have more opportunities to work with ORIGIN and PACCAR China suppliers for other projects as well," added Sebastiaan Scholte, CEO of Jan de Rijk Logistics.

"The corporation with Jan de Rijk Logistics and PACCAR expanded our business into Europe, fully leveraging our network, facility and system capabilities and expertise in China. By joining forces with Jan de Rijk Logistics we create a solution where all parties are benefiting from. I look forward to expanding our business relations with JDR into new areas, such as the booming China e-commerce logistics area." said Jason Huang, President of ORIGIN.

*PACCAR is a global technology leader in the design, manufacture and customer support of high-quality light-, medium- and heavy-duty trucks under the Kenworth, Peterbilt and DAF nameplates.
