Ruscon adds new warehouse in Novorossiysk

The Russian multimodal operator Ruscon has opened a new warehouse in Novorossiysk, its hub located at the Black Sea.

The new logistics centre is located at the terminal Ruscon 3 and features direct links to the seaport, the railway system and highways. It was built on a greenfield to cater to an increasing demand for indoor storage from clients. The warehouse features 1500 m² of space and has capacity for the storage of 840 TEU. The parking area can hold up to 15 units at the same time.

The new facility can accommodate cargo with a height of up to 11 m. The pay load per square metre is 6 mt max. The logistic centre features six fork lifts and six gates for motor and railway transport make for an efficient cargo turnaround. Four trucks or railway wagons can be handled simultaneously at each gate.

The warehouse offers heat insulation, an open internal design without any columns and a dust free concrete floor to ensure that even the most sensitive goods can be handled safely.

"Ruscon is continuing to expand its range of services in line with our clients' needs. Our new logistics centre is equipped with state-of-the-art security and control and accounting systems," says Andrey Chernyshev, Sales Director at Ruscon. "With its excellent connections to the seaport, railway and roads our customers are able to optimise their import and export supply chains, thus saving both time and money."

The caption reads:

"Ruscon's new warehouse is open for business."

RUSCON

Ruscon has worked successfully in the Russian container market since 1995. Beginning as a liner agency, today it is among the top ten container transport companies in Russia and the CIS. Ruscon belongs to one of Russia's largest transport holding companies, DELO, which also owns several terminal assets in the port of Novorossiysk.

Ruscon group consists of seven companies in various fields of container shipping including agency, logistics and terminal operations. It is active in all of the major container ports and provinces of Russia, as well as in neighbouring CIS countries and overseas.

The group has ambitious plans to continue to expand its existing companies and to add new ones in order to meet the growing demand for professional transport services in Russia, the CIS and further afield.

Ruscon has announced a strategic target of doubling its container throughput and tripling revenue over the next five years. This will be achieved through consolidation of its vertically-integrated systems to enable seamless delivery of containers to any destination in Russia and worldwide. Ruscon relies on its 1,100+ staff and close partnerships with leading Russian and international transport companies to help it meet its targets.
