

Transfer of Seabourne Group London and South East Courier Business to OCS Worldwide

OCS Worldwide and Seabourne Group have agreed to transfer Seabourne's London and South East Courier Business to OCS. This will create a bigger, more flexible operation with more resources to deliver the great service both OCS and Seabourne customers have come to expect.

Daniel Flitterman, Managing Director of Seabourne Group, said "We are delighted to have found a great home for Seabourne's loyal customers and staff. We wanted to find a like minded business with the same values as Seabourne, where customers come first with a can-do attitude to create the best solutions to meet their needs"

Tim Jones, Managing Director of OCS Worldwide, said "We are excited and proud to be bringing Seabourne's customers and staff into the OCS team. Seabourne have a reputation within the industry for great service and happy staff. We will do everything we can to ensure this continues"

OCS will assume total control for all courier requirements (i.e. quotations, bookings, collections, track and trace, invoicing etc.) from 1st November 2013. In the period leading up to that date Seabourne Group will continue to have total control and responsibility for all needs, whilst ensuring there is a smooth transition in readiness for the switch over.

From a practical perspective, there is absolutely no need for Seabourne customers to do anything differently. They can still call the same telephone number(s), speak to the same people, book on the Seabourne web booking system, track and trace via the same systems etc.

For any questions at all, please do not hesitate to contact Daniel Flitterman (dfitterman@seabourne-group.com) or Tim Jones (tim.jones@ocsworldwide.co.uk) or the usual Seabourne contacts.
