Dachser opens joint venture in Indonesia

Kempton/Jakarta. November 25, 2013. Dachser continues its global expansion in the Air & Sea Logistics business field by forming a joint venture in Indonesia starting November 18.

PT Dachser Indonesia now offers services ranging from air and sea freight to customs processing. Headquartered in Jakarta, the joint venture, in which Dachser is the largest shareholder, launched operations with currently 25 employees. Additional locations in the country will be added in 2014.

"Our presence in Indonesia means that—after Singapore, Thailand, Vietnam and Malaysia—we now have a foothold in another Southeast Asian country that is experiencing strong growth. Not only are we expanding our service portfolio for intra-Asian transport—especially our cooperation with Singapore—but we are also further connecting the region to our global logistics network," says Thomas Reuter, Managing Director of Dachser Air & Sea Logistics.

Steven Ryan, who worked for more than 20 years in the industry, has been tasked with directing the country organization. He recently joined Dachser and will report in the future to Dachser's regional management based in Singapore. Assisted by the co-owner of the JV, Hasmijati Koto, a shipping professional with a solid, long-standing reputation in the country, the new firm is off to a good start, thanks to valuable expertise, contacts, and know-how.

With over 240 million inhabitants, Indonesia is one of the largest markets in Southeast Asia, boasting a large shipping volume to Singapore, South Korea, Japan, and the US.

About Dachser:

Dachser, a family-owned company headquartered in Kempten, Germany, is one of the leading logistics providers in Europe. Dachser provides comprehensive transport logistics, warehousing, and customer-specific services in three business areas: Dachser European Logistics, Dachser Food Logistics, and Dachser Air & Sea Logistics. Comprehensive and multi-disciplinary services, such as contract logistics, consulting and advisory services, and industry-specific solutions round out the company's offerings. A seamless transport network—both in Europe and overseas—and information technology that is fully integrated into all its systems provide intelligent logistics solutions worldwide.

With a staff of 21,650 employees in 37 countries at 347 locations all over the globe, in 2012, Dachser generated revenue of EUR 4.41 billion and handled 49.8 million shipments weighing a total of 37.46 million tons.
