## **UPS ANNOUNCES NEW EUROPEAN NETWORK IMPROVEMENTS**

***Faster, cost-effective connections from 6 EU countries to Switzerland are part of network redesign and \$2 billion network investments across Europe***

**London, 3 November , 2016** – UPS (NYSE:UPS) announced today a series of enhancements to its ground network which improves trade opportunities for customers from six countries in the European Union (EU) to Switzerland. Customers in Austria, Denmark, Finland, Germany, Ireland and Sweden can now benefit from a faster, cost-effective UPS Standard® service improvement of up to two days when shipping to 60% of the population of Switzerland, including the areas around Basel and Zürich.

“With this enhancement, we have now improved our transit times from 22 countries<sup>[1]</sup> across Europe for our most economical service,” said Nando Cesarone, President, UPS Europe. “UPS has committed to invest \$2 billion into its European network and infrastructure by 2019. These network upgrades are part of that investment which helps our customers to export their products in a more efficient way.”

The recent ground time in transit improvements are made possible by UPS’s continued investment in its integrated transportation network, including several hundred million dollars

of investment in facilities in Belgium, Denmark, France, Germany, The Netherlands, Poland, Sweden and the UK.

“UPS has been helping to reliably connect European businesses of all sizes to the world for more than 30 years,” said Cesarone. “These network enhancements are further proof of our long-standing commitment of providing high quality service.”
